

openQA Project - action #81386

python-openqa_client fails to build on OBS for SLE 15/ 15 SP1

2020-12-28 15:38 - cdywan

Status:	Resolved	Start date:	2020-12-28
Priority:	Low	Due date:	
Assignee:	okurz	% Done:	0%
Category:	Concrete Bugs	Estimated time:	0.00 hour
Target version:	Ready		
Difficulty:			

Description

It seems like the build tries to use *python2* but it's not available:

```
sh: python2: command not found
```

See [the full build log](#) for more details.

The python bindings have [not been tested with python2 for a while](#) and the package [has dropped Python2 support 4 months ago](#).

I can't seem to find *what* is even using *python2* here ☐☐

History

#1 - 2021-02-09 00:44 - szarate

- Project changed from openQA Tests to openQA Project
- Category set to Concrete Bugs

#2 - 2021-02-09 18:24 - okurz

- Status changed from New to Resolved
- Assignee set to okurz
- Priority changed from Normal to Low
- Target version set to Ready

doesn't build? Disabled build with

```
<build>
  <disable repository="SLE_12_SP3"/>
  <disable repository="SLE_15"/>
  <disable repository="SLE_15_SP1"/>
</build>
```

in

https://build.opensuse.org/package/meta/devel:openQA/python-openqa_client

job done :)
