- *Private changed from Yes to No*

I have created some room by deleting about 300'000 emails from the "mailman" mailbox.

#2 - 2021-02-09 14:25 - pjessen

Root is holding at 49% full, but /data 96% full. I guess the latter is okay, although I have never managed to run a full index. There is 202284 mails for mailman, but it only takes up about 255Mb.

Hi there - and a Happy and Healthy 2022!

I'm currently closing old tickets which did not see much change.
If the main concern still exists and should be handled, please re-open by just replying to this Email.

Thanks in advance,
Lars
