

openSUSE 13.1 Release - action #838

openqa: implement before/after x11 differently

2013-09-26 13:04 - Inussel

Status:	Closed	Start date:	2013-09-26
Priority:	Normal	Due date:	2013-10-10
Assignee:		% Done:	0%
Category:	QA	Estimated time:	0.00 hour
Target version:	13.1 RC2		
Description			
the x11 tests compare the image before the test with the one after the test which turns out to be a suboptimal approach. Instead each x11 test should check for a needle like reboot-after-install to make sure the desktop is there again.			

History

#1 - 2013-10-14 07:31 - Inussel

- Target version changed from 13.1 RC1 to 13.1 RC2

#2 - 2013-10-28 14:34 - Inussel

- Status changed from New to Closed

implemented a while ago
