Assignee:	ancorgs	% Done:	0%
Category:	Development	Estimated time:	0.00 hour
Target version:	13.1 RC1		

Description

http://opensuseqa.suse.de/cropimg/show/openSUSE-13.1-KDE-Live-x86_64-Build0034-live/consoletest_finish/3

Software error:

Template error: hash- or arrayref expected (not a simple scalar, use allow_nonref to allow this) at line 91 in template passed from /usr/lib/perl5/vendor_perl/5.16.2/Text/MicroTemplate/File.pm at line 85.

```
89:         <?=$needle->{'name'} ?>
90:         {'imagepath'} ?>" data-url="<?=$needle->{'imageurl'} ?>" onclick="window.loadBackground(this);" <?=$checked="checked" if ($i == 0); ?> />
91:         {'area'} ?>);"/>
92:         {'matches'} ?>);" <?=$checked="checked" if ($i == 1); ?>/>
```

```
93:         {'tags'} ?>" onclick="window.loadTags(this);" <?=$checked="checked" if ($i == 0); ?>/>
```

For help, please send mail to the webmaster ([no address given]), giving this error message and the time and date of the error.

History

#1 - 2013-10-08 17:37 - ancorgs

- Status changed from New to Resolved

It's trying to show the needle called reboot_after_install-bnc832977, which was there when the test was executed, but disappeared from the needles directory afterward. Rerun the test or bring the needle back.

#2 - 2013-10-17 12:38 - Inussel

- Status changed from Resolved to Closed
