Separate libyui REST API to separate cpan module

2021-01-18 16:47 - riafarov

Status:	New	Start date:	2021-01-18
Priority:	Normal	Due date:	
Assignee:	oorlov	% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:	future		
Description			
Due to high priority we have put REST API client code together with the test code, even though, we should have to keep it in a separate project.			
We need to perform following activities:			
<ol style="list-style-type: none">1. Move code to the separate repo2. Establish CI3. Publish perl module on cpan4. Publish module on OBS and/or IBS to make it available for openQA workers5. Adjust salt recipes that new dependency is installed on the openQA workers			
Subtasks:			
action # 87913: Create sepate repo for perl libyui REST API and establish CI			Closed
action # 93300: Use LibyuiClient from cpan module in os-autoinst-distri-opensuse project			New
