**Description**

Infra asked us to provide a list of users and required commands to provide us access to the openqa.suse.de VM. I think <https://gitlab.suse.de/openqa/salt-pillars-openqa/-/blob/master/ssh/users.sls> is too broad for access. Therefore we need to define a list of users manually for now:

1. Andrii Nikitin
2. Christian Dywan
3. Ivan Lausuch
4. Jan Baier
5. Marius Kittler
6. Nick Singer
7. Oliver Kurz
8. Ondřej Súpka
9. Sebastian Riedel
10. Tina Müller
11. Vasileios Anastasiadis
12. Liu Xiaojing
13. Stephan Kulow

(I took this list from our rocket.chat room, did I forget anybody?)  
For now I see a need for the following commands:

- Force power off VM
- Force reset VM
- Start VM
- Spice (serial access)

#### History

##### #1 - 2021-01-19 12:08 - okurz

- Status changed from New to In Progress

- Target version set to Ready

Also see <https://jira.suse.com/browse/ENGINFRA-442>

your proposal sounds good.

##### #2 - 2021-01-22 13:07 - okurz

- Due date set to 2021-02-02

##### #3 - 2021-01-28 14:51 - cdywan

I guess this is still blocking on the Jira ticket as of 2020-01-19? Should the status be set accordingly?

##### #4 - 2021-01-28 14:52 - nicksinger

- Status changed from In Progress to Blocked

##### #5 - 2021-01-28 15:46 - okurz

I assume you mean "blocked by"? Or do you mean that this ticket "blocks" the jira ticket? I have the suspicion that someone ran into a deadlock and someone from SUSE-IT is waiting for *us* to provide something ...

**#6 - 2021-03-05 07:39 - okurz**

- *Due date deleted (2021-02-02)*

- *Priority changed from High to Low*

As the ticket is blocked already by the jira ticket I removed the due-date and commented on the jira-ticket what timeframe to expect for progress.

**#7 - 2021-05-06 14:49 - okurz**

- *Status changed from Blocked to Resolved*

The Jira ticket is not resolved but we have provided all necessary information and multiple comments in Jira. As we ourselves don't expect more and can live with the current situation well enough anyway we can set this ticket to "Resolved".
