

## openQA Project - action #88496

### openQA "t" tests time out (again) and take long

2021-02-09 12:49 - okurz

<b>Status:</b> Resolved	<b>Start date:</b> 2019-11-04
<b>Priority:</b> High	<b>Due date:</b> 2021-02-23
<b>Assignee:</b> okurz	<b>% Done:</b> 0%
<b>Category:</b> Concrete Bugs	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> Ready	
<b>Difficulty:</b>	

**Description**

#### Motivation

Checks in <https://github.com/os-autoinst/openQA/pull/3519> and other PRs time out even for completely unrelated changes. Also "t" take rather long, e.g. 35 minutes, especially due to some long-running test modules.

For example t/44-scripts.t timed out in <https://app.circleci.com/pipelines/github/os-autoinst/openQA/5545/workflows/04ed6981-b31a-4880-bfd6-8d69717f8237/jobs/52374>

#### Acceptance criteria

- **AC1:** "t" does not take significantly longer than the other steps of the circle CI pipeline (or significantly less than currently)
- **AC2:** tests in "t" are a bit more reliable again (as in past months)

#### Suggestions

- Try to split tests differently in .circleci/config and Makefile
- Bump timeout for tests that timeout
