

openQA Infrastructure - action #88807

Open vSwitch command 'set_vlan' with arguments 'tap41 13' failed: 'tap41' is not connected to bridge 'br1' at /usr/lib/os-autoinst/backend/gemu.pm line 152.

History

#1 - 2021-02-19 11:24 - okurz

- Project changed from openQA Project to openQA Infrastructure
- Category deleted (Concrete Bugs)
- Assignee set to mkittler
- Priority changed from Normal to Urgent
- Target version set to Ready

I have the suspicion that this might be a consequence of your recent changes regarding the worker setup and starting/stopping services?

#2 - 2021-02-19 12:38 - mkittler

- Status changed from New to Resolved

See [#63874#note-13](#) and further comments. I've disabled/stopped the service manually now.
