

openQA Project - action #89281

coordination # 89278 (Workable): [epic] Concurrent unnecessary uploads from investigation jobs corrupt qcow images

Prevent investigation jobs to do any asset uploads to prevent overriding production assets

2021-03-01 10:39 - okurz

Status:	Resolved	Start date:	2021-03-01
Priority:	High	Due date:

Target version:	Ready		
Difficulty:			

Description

Motivation

openqa-investigate jobs can overwrite assets as they also include parameters like PUBLISH_HDD_*

Acceptance criteria

- **AC1:** openqa-investigate jobs cloned from create_hdd_* do not attempt to overwrite production settings

Suggestions

We can likely change the scripts in github.com/os-autoinst/scripts/ to delete any PUBLISH_HDD_* parameters on clone or patch the jobs just after clone

History

#2 - 2021-03-01 12:40 - mkittler

- Status changed from Workable to In Progress

PR: <https://github.com/os-autoinst/scripts/pull/69>

#3 - 2021-03-01 13:06 - okurz

PR merged. It's already synced to osd so you could even right now trigger an according investigation job from "create_hdd" scenarios to see that investigation jobs do *not* try to override assets anymore.

#4 - 2021-03-02 04:07 - openqa_review

- Due date set to 2021-03-16

Setting due date based on mean cycle time of SUSE QE Tools

#5 - 2021-03-02 08:56 - okurz

- Status changed from In Progress to Resolved

[opensuse-15.3-DVD-aarch64-create_hdd_xfce:investigate:retry@aarch64](#) is a good example of an investigation job for a "create_hdd" case and that one does not have PUBLISH_HDD_* anymore. Good job!
