

## openQA Project - action #89560

### Add alert for blocked gitlab account when users are unable to save/commit needles

2021-03-05 12:25 - okurz

<b>Status:</b> Workable	<b>Start date:</b> 2021-03-05
<b>Priority:</b> Low	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Feature requests	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> future	
<b>Difficulty:</b>	

**Description**

#### Motivation

See [#89047](#) . As discussed in retrospective 2021-03-05 we had [#89047](#) based on a user report, not an automatic alert which we should always have first

#### Acceptance criteria

- **AC1:** Alert exists for "blocked openqa-pusher gitlab account"

#### Suggestions

- Look into existing minion related alerts
- Crosscheck existing alert levels
- Potentially extend the openQA influxdb API endpoint to more explicitly tell about the types of minion jobs to fail
- Ensure there is a grafana alert working based on above data to alert us if the gitlab needle openqa-pusher account would be blocked again
