Target version:	Ready		
Difficulty:			
Description			
Motivation			
We have a docker-compose.yaml file which is not part of any automatic testing which we should have first.			
Acceptance criteria			
<ul style="list-style-type: none">• AC1: docker-compose.yaml is used by any automatic test running as part of PR or master tests			
Suggestions			
<ul style="list-style-type: none">• See what cdywan came up with in https://github.com/os-autoinst/openQA/pull/3758
