### History

#### #1 - 2015-10-07 15:38 - Inussel

- Assignee set to coolo

agreed to introduce some %bcond\_with betatest in the patterns package in order to not require a source change. The prjconf need to set that flag then as long as we want to include the test pattern.

something like

```
%package update_test
...
%if %{?with_betatest}
Recommends:  aaa_base-malloccheck
Supplements: patterns-openSUSE-basesystem
%endif
```
