Category: Feature requests	Estimated time: 0.00 hour
Target version: future	
Difficulty:	

Description

Motivation

<http://open.qa/docs/> is getting big. We render the document without numbering of sections which could help structuring

Acceptance criteria

- **AC1:** section header in <http://open.qa/docs/> include numbers
- **AC2:** Numbers do not need to be manually maintained

Suggestions

- Explore how we can render the document differently without too much changes to the structure, maybe asciidoctor just allows this with an option
