When: 2021-05-04 18:00 UTC / 20:00 CEST

Who: The openSUSE Heroes team and everybody else!

Topics
see/use checklist

**History**

#1 - 2021-04-06 19:26 - cboltz
- Private changed from Yes to No

#2 - 2021-05-04 20:18 - cboltz
- Status changed from New to Closed

2021-05-04 heroes meeting

- checking random dnsmasq failures on anna, no obvious config errors found
- forums upgrade:
  - (vBulletin) mostly prepared
  - blocked on single sign on integration (existing plugin no longer works)
  - code of the old plugin is in /root/am_auth_code.php on new-forums.i.o.o
  - maybe use [https://github.com/oneall/social-login-vbulletin](https://github.com/oneall/social-login-vbulletin)?
    - apparently not, it's just a proxy to oneall
  - we might be able to create a new login plugin based on the "login with google" plugin (which also uses openID Connect) - core/packages/googlelogin/library/externallogin.php could be a good starting point for our login plugin
