Difficulty:			
Description			
Subtasks:			
action # 90761: os-autoinst-distri-opensuse CI checks fail due to `cpanm --instaldeps`...			Resolved
action # 91257: try out python backend for production tests in a new test distribution ...			Resolved
action # 91653: Python tests fail with generic error message regardless of the problem ...			Resolved

History

#1 - 2021-04-07 09:39 - okurz

- Parent task set to #80150

#2 - 2021-04-07 22:26 - okurz

- Status changed from *Feedback* to *Workable*

#3 - 2021-04-15 20:01 - okurz

- Tracker changed from *action* to *coordination*

#4 - 2021-04-26 14:27 - okurz

- Status changed from *Workable* to *Blocked*

#5 - 2021-06-28 15:50 - cdywan

What was this blocking on? I don't see a ticket reference here. There's one unresolved subtask but it's in *Future*.

#6 - 2021-06-28 20:45 - okurz

There are two unresolved subtasks [#91257](#) and [#91653](#) so the epic needs no further refinement until we have these two subtasks resolved, hence "Blocked" by the remaining open subtasks.

#7 - 2021-09-27 20:21 - okurz

- Status changed from *Blocked* to *Resolved*

With all three subtasks resolved and better error reporting we are done here
