<b>Category:</b> Bugs in existing tests	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> QE-Core: Ready	
<b>Difficulty:</b>	

**Description**

I had a talk with YaST TL and the issue is of rather low priority, no customer complains about it and is probably never going to be fixed and it practically doesn't break anything.

[https://bugzilla.suse.com/show\\_bug.cgi?id=1131974](https://bugzilla.suse.com/show_bug.cgi?id=1131974)

Perhaps it makes sense to disable sofffail and adjust the tests.

**Acceptance criteria**

AC1: Sofffail is disabled (substituted by record\_info)  
AC2: Test is modified to PASS if the bug occurs

**Occurance**

Sofffail occurs in module consoletest\_setup, as seen eg in :  
[https://openqa.suse.de/tests/5989275#step/consoletest\\_setup/58](https://openqa.suse.de/tests/5989275#step/consoletest_setup/58)  
[https://openqa.suse.de/tests/6116577#step/consoletest\\_setup/66](https://openqa.suse.de/tests/6116577#step/consoletest_setup/66)
