### Textmode test suite fails for s390x-kvm

2021-04-14 13:20 - syrianidou\_sofia

<b>Status:</b>	Rejected	<b>Start date:</b>	2021-04-14
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	riafarov	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	SLE 15 SP3		
<b>Description</b>			
After implementing libyui for the mentioned tests, there is a strange network failure. The url that libyui is trying to connect to seems correct but the app doesn't connect successfully. The failure is the same for all machines: <a href="https://openqa.suse.de/tests/5814857#step/bootloader_start/30">https://openqa.suse.de/tests/5814857#step/bootloader_start/30</a>			
Similar issue is visible on powerVM: <a href="#">#90776</a> , so might be that it's same issue for the both backends			

### History

#### #1 - 2021-04-19 09:52 - riafarov

- Target version set to Current

#### #2 - 2021-04-20 11:47 - syrianidou\_sofia

- Status changed from Blocked to New

#### #3 - 2021-04-20 11:49 - syrianidou\_sofia

- Status changed from New to Workable

#### #4 - 2021-04-20 12:03 - riafarov

- Subject changed from Textmode test suite fails for pvm, hmc and s390x-kvm to Textmode test suite fails for s390x-kvm

- Description updated

- Status changed from Workable to New

- Target version changed from Current to SLE 15 SP3

#### #5 - 2021-04-26 10:48 - riafarov

- Status changed from New to Rejected

- Assignee set to riafarov

Will be covered in [#90776](#) as is same issue as on powerVM and is related to the ssh installation being used.
