Target version:			
Description			
<p>After comparing test coverage of SLE 15 SP2 and SP3 in opneQA I identified several tests that are exclusive to either pre-release or post-release testing and could be easily used to increase our coverage just by using what we already have.</p> <p>It is possible that are some errors and some of the tests from the list are already being used. It is also just my opinion, therefor review from other colleagues is more then welcome.</p> <p>These are the YaST tests that run only before release and could be used also after the release (product QE -> QEM)</p> <p>tests/console/vsftpd.pm tests/console/yast2_cmdline.pm tests/console/yast2_dns_server.pm tests/console/yast2_kdump.pm tests/console/yast2_lan_hostname.pm tests/console/yast2_ntpclient.pm tests/console/yast2_proxy.pm tests/console/yast2_rmt.pm tests/console/yast2_samba.pm tests/console/yast2_settings.pm tests/console/yast2_snapper_ncurses.pm tests/console/yast2_vnc.pm tests/security/yast2_apparmor/manually_add_profile.pm tests/security/yast2_apparmor/scan_audit_logs.pm tests/security/yast2_apparmor/settings_disable_enable_apparmor.pm tests/security/yast2_apparmor/settings_toggle_profile_mode.pm tests/security/yast2_users/add_users.pm</p>			

History

#1 - 2021-04-15 06:14 - tjrinski_suse

- Subject changed from [qe-yast] Add existing Product QE tests to QEM to [qe-yast][qem] Add existing Product QE tests to QEM

#2 - 2021-04-15 06:18 - tjrinski_suse

- Tracker changed from coordination to action

#3 - 2021-04-27 06:44 - oorlov

Please, let us know (qe-yast team) in case you need any assistance from our side. You can contact me (Oleksandr Orlov) or Joaquin Rivera. Also, you can join our public channel in Rocket.Chat (#qe-yast).

#4 - 2021-04-30 07:52 - tjrinski_suse

- Category set to New test

#5 - 2021-05-25 10:33 - tjrinski_suse

- Project changed from openQA Tests to qe-yast

- Category deleted (New test)

This is intended to be done by QE Yast.

#6 - 2021-05-25 10:33 - tjyrinki_suse

- *Status changed from New to Rejected*

Duplicate of <https://progress.opensuse.org/issues/91196> (just vsftpd was removed there as false positive)
