

## openQA Tests - action #91184

coordination # 91139 (Resolved): [qe-core][epic] add QEM exclusive tests to product QE runs to increase coverage

### [qe-core] Add existing network QEM tests to Product QE

2021-04-15 06:17 - tjrinki\_suse

<b>Status:</b> Rejected	<b>Start date:</b> 2021-05-05
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b> zluo	<b>% Done:</b> 100%
<b>Category:</b> New test	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> QE-Core: Ready	
<b>Difficulty:</b>	
<b>Description</b> After comparing test coverage of SLE 15 SP2 and SP3 in opneQA I identified several tests that are exclusive to either pre-release or post-release testing and could be easily used to increase our coverage just by using what we already have.  It is possible that are some errors and some of the tests from the list are already being used. It is also just my opinion, therefor review from other colleagues is more then welcome.  These are the tests that run only after release and could be used also before the release (QEM -> product QE)  tests/network/autofs_client.pm & tests/network/autofs_server.pm tests/network/salt_master.pm tests/network/salt_minion.pm tests/network/samba/samba_adcli.pm	
<b>Subtasks:</b> action # 92158: [qe-core] Add autofs_client and autofs_server to Product QE <b>Resolved</b> action # 93330: [qe-core] Add salt-server and salt-minion to Product QE (functional) <b>Resolved</b>	

### History

#### #1 - 2021-04-15 06:18 - tjrinki\_suse

- Tracker changed from coordination to action

#### #2 - 2021-04-15 07:05 - tjrinki\_suse

- Description updated

#### #3 - 2021-04-28 09:05 - tjrinki\_suse

- Category set to New test

- Status changed from New to Workable

#### #4 - 2021-05-03 15:34 - zluo

- Assignee set to zluo

take over and check.

#### #5 - 2021-05-03 18:29 - zluo

these tests are multi machine testing, and they should be separated like autofs\_client, autofs\_server etc.

Let us talk about these offline before start to do something.

#### #6 - 2021-05-04 07:13 - zluo

@timo can you please provide the related tests on OSD? I cannot find them and I need to check the settings, thanks!

#### #7 - 2021-05-07 05:56 - tjrinki\_suse

autofs: mau-autofs-client & mau-autofs-server

salt: qam-salt-master & qam-salt-minion

(samba-ad: ignore, it's being added in another ticket)

From:

<https://openqa.suse.de/tests/overview?distri=sle&version=15-SP2&build=20210507-1&groupid=308>

The two multi-machine tests could be handled in separate tickets if wanted.

mau-autofs-client

```
AUTOFS=1
BOOT_HDD_IMAGE=1

```

#### #8 - 2021-05-17 07:38 - zluo

- Assignee deleted (zluo)

un-assign myself since separate tickets has been created.

#### #9 - 2021-06-01 08:25 - zluo

I create sub ticket for salt MM tests, so only samba/samba\_adcli.pm is remained for now.

#### #10 - 2021-06-30 11:20 - tjyrinki\_suse

- Status changed from Workable to In Progress

- Assignee set to zluo

**#11 - 2021-07-02 10:42 - zluo**

<https://progress.opensuse.org/issues/72169> covers now the part of samba, so no need to work it for now because it should be reworked.

**#12 - 2021-09-06 09:37 - zluo**

- *Status changed from In Progress to Rejected*

reject it now since samba part is to reworked as mentioned above.

**#13 - 2021-09-08 08:31 - szarate**

- *Target version set to QE-Core: Ready*
