Description			
Motivation			
openqa-review was used to generate review reports within former QA SLE and is (likely) still used by QE-Core and QE YaST. More requests came up to have a better overview of test results covering multiple job groups, e.g. in #91467 . We should remind about the existence and use cases that openqa-review fulfills			
Acceptance criteria			
<ul style="list-style-type: none">• AC1: SUSE QE squads know about openqa-review			
Suggestions			
<ul style="list-style-type: none">• Present in email, one.suse.com post, RC message, workshop topic• Show that periodic reports are generated from https://gitlab.suse.de/openqa/openqa-review/• Reference existing static links to updated reports on https://progress.opensuse.org/projects/qa/wiki/Test-results-overview• Crosscheck how openqa-review helps to solve #91467

hi, I think no one planned to present anything in this week's workshop in <https://progress.opensuse.org/projects/qa/wiki/Wiki#section-16>. To not delay that further I am now proposing "openqa-review: A review helper script for openQA with complete test overview reports" related to this ticket. [mkittler](#) would this be something for you to present as you also contributed?
