Difficulty:	

Description

Motivation

This test shows that the containers test in openQA eventually fails because of timeouts
<https://openqa.opensuse.org/tests/1724212#step/build/5>

Acceptance Criteria

- **AC 1:** container tests doesn't fails because of timeouts at least for 10 rounds

Suggestion

Seems the worker was overload, a suggestion solution is to increase the timeouts in
<https://github.com/os-autoinst/os-autoinst-distri-openQA/blob/master/tests/containers/build.pm>
