Difficulty:			

Description

Observation

Seems like the test range should be updated. Conversation here <https://chat.suse.de/channel/qem-openqa-review?msg=MxroYK9HwdQGQExE>

openQA test in scenario sle-15-SP1-SAP-DVD-Updates-x86_64-sles4sap_robot_fw@64bit-2gbram fails in [Sysctl](#)

Test suite description

The base test suite is used for job templates defined in YAML documents. It has no settings of its own.

Reproducible

Fails since (at least) Build [20210511-1](#)

Expected result

Last good: [20210510-2](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

History

#1 - 2021-05-25 11:27 - dzedro

- Priority changed from Normal to High

Julien is working on another project for few months, this won't be solved by anybody else adding soft fail <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/12593>

#2 - 2021-06-18 11:39 - tjyrinki_suse

- Subject changed from [qam][SAP]test fails in Sysctl to [qem][SAP]test fails in Sysctl

- Assignee set to jadamek

- Start date deleted (2021-05-12)

Yes, I'm in a exchange process, someone else than me can fix it for sure, please contact #qa-sap-ha.

#4 - 2021-09-01 14:01 - okurz

This ticket was set to "High" priority but was not updated within the SLO period for "High" tickets (30 days) as described on <https://progress.opensuse.org/projects/opengatests/wiki/Wiki#SLOs-service-level-objectives> . Please consider picking up this ticket within the next 30 days or just set the ticket to the next lower priority of "Normal" (SLO: updated within 365 days). This update was done as agreed within the SUSE QE Sync call 2021-09-01

#5 - 2021-09-15 07:23 - okurz

- Subject changed from *[qem][SAP]test fails in Sysctl* to *[qe-sap][qem][SAP]test fails in Sysctl*

Using keyword "qe-sap" as verified by jmichel in weekly QE sync 2021-09-15

#6 - 2021-09-15 08:47 - jadamek

- Status changed from *New* to *In Progress*

- % Done changed from *0* to *50*

I checked the last fifteen tests and I can not see this issue anymore, the related softail is not triggered. Unfortunately, I can't see what was the returned value as the job history has gone. Let me remove the softail and monitor the test before closing this ticket.

#7 - 2021-09-15 08:57 - jadamek

Ok I got the info from the commit message:

The returned value was 91284 and we expect something in the range '80000:91000'

Let's remove the softfail before increasing the range.

#8 - 2021-09-15 09:50 - jadamek

- Status changed from *In Progress* to *Feedback*

- Priority changed from *High* to *Normal*

- % Done changed from *50* to *90*

<https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/13259>

#9 - 2021-09-29 07:19 - jadamek

- Status changed from *Feedback* to *Resolved*

- % Done changed from *90* to *100*

The issue no longer happens, let's resolve this ticket for now.
