

## openQA Tests - action #92939

coordination # 91139 (Workable): [qe-core][epic] add QEM exclusive tests to product QE runs to increase coverage

action # 91181 (Resolved): [qe-core] Add existing console QEM tests to Product QE

### [qe-core] Add misc console tests from QAM to sles 15 functional

2021-05-21 14:44 - zluo

<b>Status:</b>	Resolved	<b>Start date:</b>	2021-05-21
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	zluo	<b>% Done:</b>	0%
<b>Category:</b>	New test	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	QE-Core: Ready		
<b>Difficulty:</b>			
<b>Description</b>			
Add all other console tests except MM tests.			
Tasks:			
<ul style="list-style-type: none"><li>• check which can/should be added, depending on test requirements (repos or qcow2 image)</li><li>• create yaml schedule 'extra_tests_misc' and test suite 'extra_tests-misc'</li></ul>			

### History

#### #1 - 2021-05-21 14:45 - zluo

bind failed and I cannot find example test from QAM on OSD, so skip it at first.  
sle-module-development-tools is not available and textmode hdd doesn't contain this repo.

#### #2 - 2021-05-21 16:12 - zluo

It seems that hdd 'allpatterns and allmodules' is needed. We don't have it yet. So I need to create it at first:

yaml schedule for test create\_hdd\_allpatterns\_allmodules and use START\_AFTER\_TEST for new test 'textmode-misc'.

#### #3 - 2021-05-26 09:04 - zluo

check what is possible for adding these modules to functional:  
some tests are okay except following:

bind,krb5,dracut\_enhanced cannot be added to functional because addon repo is required.  
valgrind,openssl\_nodejs cannot be found atm.

#### #4 - 2021-05-27 12:13 - tjyrinki\_suse

- Category set to New test

#### #5 - 2021-05-27 13:46 - zluo

- Status changed from Workable to In Progress

<http://10.160.64.152/tests/2677> should look like this for some test modules

extra\_test\_misc can be extended in future if we have new test case which required a qcow2 hdd of allmodules+allpatterns-gnome.

#### #7 - 2021-05-27 13:59 - zluo

- Description updated

#### #8 - 2021-05-27 14:00 - zluo

PR <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/12614> created now.

#### #9 - 2021-05-31 08:29 - zluo

PR merged and test suite and schedule are now in place.

#### #10 - 2021-07-06 06:52 - zluo

because of changes in yaml schedule for Tumbleweed, I verified the test run and make sure that these misc tests still working for sles:  
<http://10.160.64.152/tests/3305>

**#11 - 2021-09-06 07:37 - zluo**

- *Status changed from In Progress to Resolved*

[http://openqa.suse.de/tests/6994842#next\\_previous](http://openqa.suse.de/tests/6994842#next_previous)

scheduled finally and works fine for sles 15 sp4 :)

**#12 - 2021-09-08 08:31 - szarate**

- *Target version set to QE-Core: Ready*
