<b>Category:</b> Concrete Bugs	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> future	
<b>Difficulty:</b>	

**Description**

### Motivation

The PR <https://github.com/os-autoinst/openQA/pull/3915> introduces a test of launching a job, but in the webui logs we can appreciate this error  
I separated this ticket from [#92833](#) because It requires go deeper in testing and also see if there are other alternatives to the provided solution (below)

```
webui_2 | {"error":"Not authorized"}
```

### Acceptance criteria

- **AC 1** The communication from the webui with the scheduler is authorized

### Ideas and previous tests

Adding this to client.conf works.

```
[scheduler]\nkey = 1234567890ABCDEF\nsecret = 1234567890ABCDEF\n
```

**Related issues:**

Related to openQA Project - action #92833: containers: Web UI cannot connect ...	<b>Resolved</b>	<b>2021-05-19</b>	<b>2021-06-04</b>
--	-----------------	-------------------	-------------------

### History

#### #1 - 2021-05-27 11:43 - ilausuch

- Related to action #92833: containers: Web UI cannot connect to scheduler added

#### #2 - 2021-05-27 14:41 - okurz

- Priority changed from Normal to Low

- Target version set to future

Again, the ACs like "Add a test to check this" are not criteria, these are suggestions

#### #3 - 2021-06-04 11:05 - ilausuch

- Description updated

#### #4 - 2021-06-04 11:06 - ilausuch
