Description

Test case "audit-tools/test_auditd_restart" failed on this.

The MR: https://gitlab.suse.de/security/audit-test-sle15/-/merge_requests/1

The filter "aud=\$value" is not correct when filtering audit.log.

Compared with "

https://gitlab.suse.de/security/cc-testing-sles15/-/blob/master/audit-test/intel-x64_64-audit-test/audit-tools/tests/test_auditd_restart" there is no this filter too.

Verification run:

The test_auditd_restart is passed: https://openqa.suse.de/tests/6300406#step/audit_tools/38
