openQA Project - action #94937

coordination # 91646 (Blocked): [saga][epic] SUSE Maintenance QA workflows with fully automated testing, approval and release

coordination # 89062 (Resolved): [epic] Simplify review for SUSE QAM

Distinguish comment types on jobs on /tests (maybe optional) size:S

2021-06-30 09:43 - okurz

Status:	Resolved		**Start date:**	2021-05-28
Priority:	Low		**Due date:**	
Assignee:	tinita		**% Done:**	0%
Category:	Feature requests		**Estimated time:**	0.00 hour
Target version:	Ready			
Difficulty:				

Description

Motivation

As a test reviewer and member of one of many QA squads I want to find unreviewed openQA test failures on /tests to have access to a single page showing all failures needing review work. Being able to distinguish the comment type same as we do on /tests/overview and the list of "Next & Previous" jobs can help as well as prevent confusion what the "comment" icon actually means

Also see parent [#89062](#)

Acceptance criteria

- **AC1:** At least completed tests /tests shows comment type icons same as we do on /tests/overview and the list of "Next & Previous" jobs (on request or always)

Suggestions

So far /tests already shows a comments icon but makes no distinction like on /tests/overview or "next & previous" between "plain comment", "label" or "bugref". We should extend that to distinguish comment types.
If there is a significant performance impact only enable on request, e.g. a hidden query parameter

- Try t/ui/01-list.t and see if you can extend it
- Distinguish between "plain comment", "label" and "bugref" same as we do in /tests/overview and "next & previous"
- Optional: Add UI element to configure this, e.g. again like on /tests/overview

- Copied from coordination #93246: [epic] List all unreviewed failed (or incomplete) jobs on /tests on request size:M added

#2 - 2021-07-01 09:26 - tinita

- Status changed from Workable to In Progress

- Assignee set to tinita

#3 - 2021-07-01 12:14 - tinita

Implemented and pushed to my fork.
Now finding out which tests to change and/or extend.

#4 - 2021-07-01 12:15 - okurz

Does t/ui/01-list.t from my suggestions not work?

#5 - 2021-07-01 13:43 - tinita

> Does t/ui/01-list.t from my suggestions not work?

My approach was to first let CI run all tests and see if I broke something, and go from there.

#6 - 2021-07-01 13:48 - tinita

- File testlist-comments-before.png added

- File testlist-comments-after.png added

#7 - 2021-07-01 18:45 - okurz

Looks good. Maybe except for the unexpected difference in line wrapping.

#8 - 2021-07-05 16:06 - tinita

I added a test for an open bugref.
Will add tests for the other cases as well.

Note: Showing comment data was completely disabled in the past due to performance reasons for the running and scheduled tests, according to the comments in the code I found.
So I implement this only for the finished tests.

Note to self:

```
# Use this list for showing relevant tests with coments, bugrefs and labels
my %ids = qw( 1811909 1 1811550 1 1811761 1 1811897 1 1811912 1 1812121 1 1811554 1 );
@jobs = grep { $ids{ $_->id } } @jobs;
# in loop:
if ($job_id == 1811554) {
    $comment_data{comments} = 2;
}
```

#12 - 2021-07-09 10:00 - okurz

- Related to action #95281: error on "Next & previous results": ajax error message and no results showing up added

#13 - 2021-07-09 10:01 - okurz

likely regression #95281

#14 - 2021-07-09 10:23 - tinita

- Status changed from Feedback to In Progress

#15 - 2021-07-09 10:48 - okurz

I fixed #95281 by rolling back with a revert PR and deploy that on both o3 and osd. I also created a follow-up #95293

#16 - 2021-07-12 09:55 - tinita

New PR: https://github.com/os-autoinst/openQA/pull/4035

I actually wanted to add this message last week, but didn't see the redmine conflict when I clicked Submit.

#17 - 2021-07-12 09:55 - tinita

- Status changed from In Progress to Feedback

#18 - 2021-07-14 10:23 - tinita

- Status changed from Feedback to Resolved

- Deployed on o3
- Checked that the link from [#95281https://openqa.opensuse.org/tests/1831535#next_previous](#) is working properly now
