Description

Observation

See ticket in parent tracker: <https://gitlab.suse.de/qa-maintenance/qamapi/-/issues/5>

Acceptance criteria

- <AC1: the api doesn't fail to return a testreport when the reviewer's name isn't preceded by a space in the relevant line of the testreport

Further details

This bug leaves otherwise valid testreports unable to be queried by the API, which also impacts the Maintenance Testreports section of <https://smelt.suse.de/reports/>

History

#1 - 2021-07-14 11:45 - VANASTASIADIS

A merge request for this exists in https://gitlab.suse.de/qa-maintenance/qamapi/-/merge_requests/3.
