Description

in cc test code:

```
audit-test-sle15/audit-test/utls/network-server/lblnet_tst_server.c:341
```

```
rc = execl("/usr/local/eal4_testing/audit-test/audit-remote/tests/remote_call.bash",  
"/usr/local/eal4_testing/audit-test/audit-remote/tests/remote_call.bash",  
it is hardcoded to use this dir to run the bash script. so enhance our test code as well.
```
