clean up SLE-workarounds

Description

clean up the SLE-workarounds subproject. Check which packages got merged and remove them. Verify the remaining ones are progressing.

History

#1 - 2022-02-24 16:02 - lkocman
I suppose nothing to do here, with exception of cleanup once Maintenance team publishes non-x86_64 WE packages to Backports
https://github.com/openSUSE/openSUSE-release-process/issues/71

#2 - 2022-05-20 07:15 - mlin7442
- Status changed from New to Resolved
- % Done changed from 0 to 100

There are still some agreed-to-fork SLE package does exist in SLEFork though, and some are no longer ship from SLE products.
